

AFA Resources

Nobody Does It Better!

Collective Bargaining Staff—AFA-CWA negotiates the best Flight Attendant contracts in the industry, maintaining and improving wages, benefits and working conditions for Flight Attendants. AFA has a large staff of experienced full time lawyers and professional negotiators dedicated to Flight Attendant focused issues.

Air Safety, Health & Security—AFA-CWA fights exclusively to improve conditions that affect the safety, health and security of Flight Attendants. AFA provides full time staff support in Washington, DC for the AFA Safety Committee Chairs and members at all our carriers. We have led the industry on issues like air quality, industrial hygiene, KCM, OSHA protections, human trafficking awareness training and communicable disease protocols.

Government Affairs—AFA-CWA has a strong presence in Washington, D.C. and around the country influencing policies impacting our profession. Not only does AFA support legislation to improve our workplace, we are pro-active in creating it. For decades, Congress and the government have respected AFA's knowledge of our industry and they turn to AFA in times of crisis. AFA's strategy is to win workplace improvements under the law, so we won't have to bargain for them at the negotiations table.

Employee Assistance Program (EAP) - The AFA-CWA Employee Assistance Program is a confidential resource available to our members, their families and their partners to assist with personal, as well as work-related concerns. AFA EAP provides : assessment, support and resource referral, advancement of professional standards through conflict resolution and response to critical and traumatic incidents.

Strong Labor Affiliations—AFA-CWA is the only Flight Attendant union solely representing Flight Attendant issues and concerns, affiliated with the AFL-CIO the 13-million member American Labor Federation. Our Union is a voice for Flight Attendants within the Transportation Trades Department of the AF-CIO, which serves as a unifying voice for working people in the transportation sector. AFA-CWA shares information and strategies, working in solidarity with Flight Attendants unions around the world through our affiliation with International Transport Workers Federation (ITF).

Stand-alone unions lack the resources and professional staff required to provide the kind of exceptional programs that AFA's members have made a priority throughout our history. Our members and leaders have ensured our Union is a cut above the rest and that we provide the kind of effective programs necessary to address the issues that matter to Flight Attendants. Our programs go above and beyond that of the lawfully required minimal obligations of a union, like negotiations and grievance handling. This is just one more area where our union surpasses any start-up and stand-alone unit.
